Fire Policy Don't expect too much of your fire insurance policy. After all it is a contract

and covers exactly what it says it does. If you merely insure your house and happen to have a private garage on the lot and have not also insured the garage the policy merely covers the house. There are a lot of little things about a policy that you should understand. Of course, you want complete protection. If you aren't sure bring your policy to us and we will go

over it with you. In writing fire insurance policies at this bank we always see to it that our clients have the protection that they really want.
